LIST OF REPORTS AND PUBLICATIONS FOR ECOLOGICAL RESERVES IN BRITISH COLUMBIA

FORWARD

Ecological reserves are created not only to conserve representative and/or unique ecosystems of British Columbia, but to offer **long-term research** and **educational opportunities.** Since 1971 when the first ecological reserves were created in British Columbia, a substantial number of research projects have been completed in our reserves, including numerous graduate thesis projects, long-term monitoring or ecological studies, as well as short-term projects.

Since our first list of Reports and Publications was released in 1986, 420 new listings have been added to the initial 464 reports for a total of 884 titles. The publication is serving one of its purposes, which is to document the research activities taking place in B.C. Ecological Reserves. Many of these new listings are dated, being passed onto us by researchers who are just becoming aware of the existence of our publication. However, many references are quite new, with no less than 60 entrees for 1987/1988. Each new entry to the 1988 list has been highlighted with an asterisk for your convenience. Again, we would appreciate receiving any additional references which you feel are pertinent.

References with a full number (i.e. 4, or 52-17) are filed in our office. We are attempting to obtain copies of those references with a parenthesis in their report number (i.e. 52-(28)). References not given a number were included as pertinent as they could be useful to researchers planning to work in a reserve; however, we will not be obtaining copies of these reports.

The B.C. ecological reserves system, although far from complete, now contains 120 reserves and offers unparalleled research opportunities. We hope that this list of reports and publications will prove useful to researchers in this province and elsewhere, and encourage them to make use of our reserves for their work.

Please send additional references, or address your enquiries to:

LOCATION OF

ECOLOGICAL RESERVES

June 1988

67● Reserve number and location

LOCATION AND DESCRIPTION OF B.C. ECOLOGICAL RESERVES

ER # and Name	Location	Main Feature(s)	Area (ha
1. Cleland Island	Clayoquot Sound	Seabird colony	7.7
2. East Redonda Island	N end of Georgia Strait	Three biogeoglimatic zones with many habitats	6,212
3. Soap Lake	S of Spences Bridge	Alkaline lake with Douglas fir forest	884
4. Lasqueti Island	Georgia Strait	Shoreline forest with Rocky Mountain juniper	201
5. Lily Pad Lake	S of Lumby	Undisturbed highland lake	101
6. Buck Hills Road	S of Lumby	Western larch stand	16
7. Trout Creek	SSW of Summerland	Ponderosa pine parkland	75
8. Clayhurst	S of Clayhurst	Peace River parklands	316
9. Tow Hill	Graham Island, Q.C.I.	Forested sand dunes, swamp and peat bogs	514
10. Rose Spit	Graham Island, Q.C.I.	Sand dunes and shoreline meadows	170
11. Sartine Island	Part of Scott Islands	Seabird colony	1.
12. Beresford Island	Part of Scott Islands	Seabird colony	7.7
13. Anne Vallee (Triangle Island)	Part of Scott Islands	Largest seabird and sea-lion colonies in province	85
14. Solander Island	Off Cape Cook, Vancouver Island	Seabird colony	7.7
15. Saturna Island	Strait of Georgia	Coastal Douglas fir forest	131
16. Mount Tuam	Saltspring Island	Arbutus-Douglas fir forest	254
17. Canoe Islets	Near Valdes Island	Seabird colony	0.6
18. Rose Islets	Trincomali Channel, N of Reid Island	Double crested cormorant colony	0.8
19. Mount Sabine	N of Canal Flats	Sedge meadow	7.9
20. Columbia Lake	E side of Lake	Calcareous vegetation along stream and on a meadow	32

ER # and Name	Location	Main Feature(s)	Area (ha)
21. Skagit River Forest	S of Hope	Douglas fir forest	73
22. Ross Lake	S of Hope	Ponderosa pine in coastal Douglas fir forest	61
23. Moore/McKenney/ Whitmore Islands	Hecate Strait	Seabird colony	73
24. Baeria Rocks	Barkley Sound	Seabird colony and subtidal marine life	53
25. Dewdney and Glide Islands	Hecate Strait	Variety of maritime bog, pond and scrub forest communities	3,845
26. Ram Creek	East Kootenays	Hotsprings and burnt forest	121
27. Whipsaw Creek	SW of Princeton	Ponderosa pine stands	32
28. Ambrose Lake	Sechelt Peninsula	Coastal bog lake	228
29. Tranquille	W of Kamloops	Ponderosa pine and sagebrush plant communities	235
30. Vance Creek	N of Lumby	Transitional forest between the Interior Douglas Fir and Interior Western Hemlock zones	49
31. Lew Creek	E of Upper Arrow Lake	Three biogeoclimatic zones in one drainage basin	815
32. Evans Lake	Valhalla Park, E of New Denver	Subalpine forests including stand of rare yellow cedar	185
33. Field's Lease	W of Osoyoos Lake	Semi-arid plant communities	4.[illegible]
34. Big White Mountain	Big White Mountain	Subalpine and alpine plant communities	951
35. Westwick Lake	S of Williams Lake	Shoreline and area surrounding an Interior saline lake	27
36. Mackinnon Esker	NW of Prince George	Long compound esker, well developed lichen communities	583
37. Mount Maxwell	Saltspring Island	Garry oak stand	65
38. Takla Lake	E of Hazelton	Most northerly known occurrence of Douglas fir	263

ER # and Name	Location	Main Feature(s)	Area (ha
39. Sunbeam Creek	N of McBride	Engelmann Spruce-Subalpine Fir zone	511
40A Kingcome River	Head of Kingcome Inlet	Rich alluvial swamps and bogs	158
40B Atlatzi River	Head of Kingcome Inlet	Alluvial swamps, bogs and steep rocky slope	256
41. Tacheeda Lakes	N of Prince George	Sub-boreal Spruce zone in the McGregor Plateau	526
42. Mara Meadows	E of Salmon Arm	Unique calcareous fen; rare orchids	189
43. Mount Griffin	N of Mabel Lake	Secondary and climax Interior Western Hemlock forests	1,376
44. East Copper/Jeffrey/ Rankine Islands	East coast of Moresby Island	Seabird colony	121
45. Vladimir J. Krajina (Port Chanal)	West coast of Graham Island	Virgin littoral environment, lowland Sitka spruce forest, alpine communities, rare mosses, seabird colony	9,834
46. Sikanni Chief	Headwaters of Sikanni Chief River	Engelmann spruce at northern extremity of range. Sub-alpine lichens	2,401
47. Parker Lake	W of Fort Nelson	Natural bog habitat. Preservation of Sarracenia purpurea (pitcher plant)	259
48. Bowen Island	W of Apodaca Provincial Park	Forest of Douglas fir and red cedar. Dry subzone of Western Hemlock zone	397
49. Kingfisher Creek	Hunters Range, ESE of Sicamous	Representative flora of northern Monashee mountains	1,441
50. Cecil Lake	NE of Fort St. John	Sphagnum bog community with black spruce	129
51. Browne Lake	N of McCulloch	Marsh and forest, rich in wild flowers	124
52. Drizzle Lake	SE of Masset	Lake and surroundings; unique species of stickleback	837

ER # and Name	Location	Main Feature(s)	Area (ha)
53. Narcosli Lake	Between Coglistiko and Baezaeko Rivers	Protection of waterfowl breeding grounds. Well developed aquatic communities	1,098
54. Nitinat Lake	Vancouver Island, SE of Bamfield	Steep west coast forest; maritime population of Douglas fir	79
55. Cardiff Mountain	E of Chilko River	Example of lava plateau, basalt columns and crater lake	65
56. Goosegrass Creek	W of McNaughton Lake	A cross-section of three biogeoclimatic zones which includes a stand of mountain hemlock	2,185
57. Chickens Neck Mountain	N of Dease Lake	Climax stand of white spruce and subalpine fir	680
58. Blue/Dease Rivers	W of Lower Post	Terrestrial and aquatic communities associated with the Boreal Black and White Spruce zone	777
59. Ningunsaw River	SE of Bob Quinn Lake	Coastal Western Hemlock zone near its northern limit and associated Englemann Spruce-Subalpine Fir and Alpine Tundra zones	2,046
60. Drywilliam Lake	S of Fraser Lake	To preserve an excellent old growth stand of Douglas fir	95
61. Upper Shuswap River	E of Mabel Lake	Western red cedar in Interior Western Hemlock zone	70
62. Fort Nelson River	N of Fort Nelson and Muskwa Rivers	White spruce developing within alluvial stands of black cottonwood	121
63. Skeena River	Near confluence of Exchamsiks River	To preserve mature cottonwood on alluvial floodplain	91
64. Ilgachuz Range	In vicinity of Far Mountain	Subalpine vegetation of Interior Plateau and Coast Mountains	2,914
65 Chasm	N of Clinton	Ponderosa pine near its northern limits	197
66. Ten Mile Point	Victoria	Inter- and subtidal marine life	11
67. Satellite Channel	Between Saltspring Is. & Saanich Peninsula	Subtidal marine life	343

ER # and Name	Location	Main Feature(s)	Area (ha
68. Gladys Lake	Spatsizi Plateau	Stone sheep, mountain goats and their environment	48,560
69. Baynes Island	Squamish River	Alluvial black cottonwood forest on undisturbed land	71
70. Mount Tinsdale	ESE of Barkerville	Representative communities of Alpine and Subalpine zones	419
71. Blackwater Creek	NW of Mackenzie	Boreal forest and portion of extensive low moor area	234
72. Nechako River	W of Prince George	Good stand of tamarack	133
73. Torkelsen Lake	W of Babine Lake	Low moor wetlands with cloudberry	182
74. U.B.C. Endowment Lands	Vancouver	Second-growth forest of Puget Sound Lowlands	90
75. Clanninick Creek	Near Kyuquot	Alluvial Sitka spruce	37
76. Fraser River	NW of Chilliwack	Alluvial forest of cottonwood and willows	76
77. Campbell-Brown (Kalamalka Lake)	W side of lake near Rattlesnake Point	Ponderosa pine-bunchgrass site; rattlesnake den	10
78. Meridian Road (Vanderhoof)	S of Vanderhoof	Engelmann spruce-sub-alpine fir-lodgepole pine forest	262
79. Chilako River	S of Vanderhoof, N of Batnuni Lake	Tamarack, at its southern limit in B.C.; swamp, fen, bog ecosystem mosaic	64
80. Smith River	Near junction with Liard River	Representative boreal black and white spruce forest	1,326
81. Morice River	S of Houston	Burnt sub-boreal spruce forest	358
82. Cinema Bog	NNE of Quesnel	Lowland black spruce-sphagnum bog	68
83. San Juan Ridge	E of Port Renfrew	Protection of rare white avalanche lily (Erythronium montanum)	98
84. Aleza Lake	"Big Bend" of Fraser River	Sub-boreal spruce forest, lakes and wetland ecosystems	242
85. Patsuk Creek	NE of Mackenzie	Paper birch and other seral forest	554

ER # and Name	Location	Main Feature(s)	Area (ha)
86. Bednesti Lake	W of Prince George	Kettle lake wetland succession	139
87. Heather Lake	NW of Mackenzie	Deciduous forest with aspen	235
88. Skwaha Lake	N of Lytton	Subalpine forest and superb flower meadows	850
89. Skagit River Cottonwoods	Skagit River Valley	Excellent cottonwood stands reserved for gene pool purposes	69
90. Sutton Pass	W of Port Alberni	Rare Adder's tongue fern, *Ophioglossum vulgatum*	3.4
91. Raspberry Harbour	Williston Lake, NW of Finlay Forks	Lodgepole pines with high site indices for use in forest research	143
92. Skihist	NE of Lytton	Ungrazed Ponderosa pine - bunchgrass site	36
93. Lepas Bay	Northern Graham Island, Q.C.I.	Seabird colony on island	3.6
94. Oak Bay Islands	E of Victoria	Spring flowers, a seabird colony and marine life	170
95. Anthony Island	W of Moresby Island, Q.C.I.	Twenty small islets with nine species of nesting seabirds, and rich marine life	324
96. Kerouard Islands	S of Moresby Island, Q.C.I.	Major sea-lion rookery, seabird colony and rich marine life	130
97. Race Rocks	Metchosin, Vancouver Island	Outstanding marine community including sea-lion haul-out sites	220
98. Chilliwack River	U.S. border, SE of Chilliwack	Mature alluvial forest with large western red cedars	86
99. Pitt Polder	Maple Ridge	Two forested hills surrounded by swamp and bog	85
100. Hayne's Lease	N end of Osoyoos Lake	Representative semi-arid land with elements of "pocket desert" vegetation	101
101. Doc English Bluff	SE of Williams Lake	Limestone cliff with 10 species of rare flowers and ferns, and colony of white-throated swifts	52
102. Charlie Cole Creek	S of Teslin; ESE of Atlin	Cold-water mineral springs used by ungulates as salt licks	162

ER # and Name	Location	Main Feature(s)	Area (ha)
103. Byers/Conroy/Harvey/ Sinnett Islands	Hecate Strait	Important seabird and marine mammal breeding areas	12,205
104. Gilnockie Creek	E of Kingsgate in East Kootenays	Mature western larch	58
105. Megin River	NE of Estevan Point, W coast of Vancouver Island	Typical west coast alluvial and upland forests	50
106. Skagit River Rhododendrons	SW of Hope	Two stands of California rhododendrons, seral forest	70
107. Chunamon Creek	NE of Germanson Landing, Williston Lake	Two small drainages; Engelmann and white spruce forest	344
108. Cougar Canyon	S of Vernon on E side of Kalamalka Lake	Mosaic of plant communities including wetlands in an enclosed drainage	550
109. Checleset Bay	SW of Kyuquot, Vancouver Island	B.C.'s prime sea otter population and rare native oyster population	34,650
110. McQueen Creek	N of Kamloops	Native grasses and flowers on small hill	35
111. Robson Bight	Midway between Port McNeil and Sayward, Vancouver Island	Killer whales and a crucial part of their habitat; pristine estuary and forested slopes	1,660
112. Mount Tzuhalem	Duncan, Vancouver Island	Garry oak, spring wildflower ecosystems	18
113. Honeymoon Bay	Cowichan Lake, Vancouver Island	Outstanding population of pink fawn-lily (*Erythronium revolutum*)	7.5
114. Williams Creek	SE of Terrace	Representative coastal western hemlock forest and outstanding terraced bogs	700
115. Gingietl Creek	30 km upstream of mouth of Nass River	Undisturbed watershed in virgin coastal western hemlock forest	2,873

ER # and Name	Location	Main Feature(s)	Area (ha)
116. Katherine Tye (Vedder Crossing)	SE of Chilliwack near Sumas	Rare white phantom orchid (Cephalanthera austinae) and its habitat	3.1
117. Haley Lake	Haley Lake and Butler Peak 32 km W of Nanaimo	Vancouver Island marmot population in sub-alpine bowl	93
118. Nimpkish River	85 km W of Campbell River, Vancouver Island	Sample of Canada's tallest Douglas firs	18
119. Tahsish River	50 km S of Port McNeill, Vancouver Island	Pristine westcoast estuary	70
120. Duke of Edinburgh (Pine/Storm/Tree Islands)	Off V.I., 35 km NW of Port Hardy	Largest seabird nesting colony in Queen Charlotte Strait.	660
		TOTAL AREA *	155,788.2

* At least 50,000 ha of this total area cover marine waters.

LOCATION AND DESCRIPTION OF B.C. ECOLOGICAL RESERVE PROPOSALS FOR WHICH RESEARCH PUBLICATIONS EXIST

ER # and Name	Location	Main Feature(s)	Area (ha)
23. Hippa Island Extension	Graham Island, Q.C. Is. Adjacent to E.R. #45	Marine environment for reintroduced sea otters	2,750
25B. Kootenay Inlet	West coast of Moresby Island, Q.C. Is.	Endemic flora and fauna, salt marsh ecosystems; alpine and subalpine bogs in Coastal Western Hemlock Zone, hypermaritime subzone	Under revie
72. Stum Lake	27 km NE of Alexis Creek	Nesting area of white pelican	Under revie
97. Khutzeymateen	NE of Prince Rupert	Valley with grizzly bear population, 7 species of salmonids, tidal flats used by migratory waterfowl. Coastal Western Hemlock Zone.	2,400
110. Sumas Mountain	Lower Fraser Valley	Rare mainland occurrence of Garry oak in the Coastal Douglas Fir Zone.	20
111. Tsitika River	NE Vancouver Island	Representative forest and bog communities of Mountain Hemlock and Coastal Western Hemlock Zone. Examples of alpine heath.	2,270
120. Bonney/ Kwinageese/ Munro Lakes	Nass River drainage E of Stewart	Representative plant communities between Coastal Western Hemlock and Engelmann Spruce - Subalpine Fir Zones. Outstanding occurrence of *Abies amabilis*.	5,360
125. Natadesleen Lake	Stewart/Cassiar highway near Mt. Edziza	Representative forest stands of Boreal White and Black Spruce Zone. Waterfalls, rare plants, grizzly bears.	1,960
127. Ehahcezetle Mountain	Eddontenajon Lake	Representative plant communities of Boreal White and Black Spruce, Engelmann Spruce - Subalpine Fir, and Alpine Tundra Zones.	3,432

ER # and Name	Location	Main Feature(s)	Area (ha)
130. Thenatlodi Mountain	Stikine River crossing off Highway 37	Representative low-productivity forests in the Boreal White and Black Spruce Zone; and shrublands of the subalpine Spruce-Willow-Birch Zone.	7,806
131. Tanzilla River	Near Dease Lake	Rare unburnt boreal forest, wetlands and subalpine shrubland in the Boreal White and Black Spruce and the Spruce-Willow-Birch Zones.	2,400
132. Tsenaglode Creek	S. of Dease Lake	Extensive willow communities on seepage sites; wetlands with ponds and lakes; alpine communities, in the Spruce-Willow-Birch and Alpine Tundra Zones.	7,855
232. Portage Brule Rapids	Liard River	Hotsprings, unusual vegetation, representative forest on alluvial terraces in Boreal White and Black Spruce Zone.	1,012
241. Brooks Peninsula	NW Vancouver Island	Endemics and disjunct plant distributions; southernmost examples of Hypermaritime Subzone communities in the Coastal Western Hemlock Zone. Two parts, one with small drainage system, lake and lagoon-like estuary.	6,300
246. Hayes-Christison-Shaw	S of Otter Lake & W of Hwy. 97E; 14.5 km N of Vernon	Representative lowland forest ecosystems of North Okanagan valley and partial protection of heronry; Interior Douglas Fir Zone.	61
249. Mud Bay	Near White Rock	Delta and estuary of Serpentine and Nikomekl Rivers; very important area for migratory waterfowl.	4[illegible]
253. Stein River	Near Lytton	Ponderosa pine near western margin of its range in strongly fire-influenced forest communities; representative communities for Interior Douglas Fir and Engelmann Spruce-Subalpine Fir Zones.	65

ER # and Name	Location	Main Feature(s)	Are (h
256. Klaskish River	NW Vancouver Island	Productive estuary and alluvial forest; population of native oysters. Coastal Western Hemlock Zone.	485
260. Nemo Creek	W of Slocan Lake	Small, self-contained drainage system with representative mature forest in the Interior Western Hemlock and Engelmann Spruce-Subalpine Fir Zones. Small area of Alpine Tundra.	360
265. Syringa Creek	Lower Arrow Lake	Fire climax vegetation of Douglas Fir and Ponderosa pine representative of the Interior Douglas Fir/ Interior Western Hemlock transition.	620
285. Dease/French Rivers	Area along the Dease River opposite its confluence with French River; approx. 48 km NE of Cassiar	Conservation of Boreal White and Black Spruce Zone ecosystems developed on calcareous parent materials including mature and seral forests, steppe grassland, complex of sand dunes and wetlands.	3,440
286. Fourth of July Creek	NE of Atlin	Outstanding glacio-fluvial landforms including eskers, kames, kettles and their associated ecosystems ranging from wetlands to steppe and shrublands, all in the Spruce-Willow-Birch Zone.	772
288. Mount Mansfield	Upper Tatshenshini Valley	Conservation of Dall sheep and their habitat in the Spruce-Willow-Birch and Alpine Tundra Zones; mineral licks, rare plants.	5,006
303. Calvert Island	N of Vancouver Island	Undisturbed beach and other shoreline ecosystems including characteristic landforms, flora and fauna; shore pine bog and scrub-forest ecosystems. Hypermaritime Subzone of Coastal Western Hemlock Zone.	2,134

ER # and Name	Location	Main Feature(s)	Area (ha)
305. Jack Swart Creek	Area to N of Jack Swart Creek (tributary to Spius Creek) approx. 17 km W of Merritt	Conserve mature stand of ponderosa pine in Interior Douglas Fir Zone.	56.4
327. Weynton Passage (Stubbs Island)	In Weynton Passage, Johnstone Strait, approx. 30 km E of Port McNeill	Protection of high current marine ecosystems occurring on east side of Vancouver Island.	416 (only 32 of land)
330. Candlestick Cave	Near Alberni, V.I.	Limestone Cave with outstanding calcite formations, including helictites.	16
344. Wee Sandy Creek	Slocan Lake	Important mountain goat winter/spring habitat and the associated ecosystems in the Interior Western Hemlock Zone and Engelmann Spruce-Subalpine Fir Zone.	396
346. Trial Islands	1 km S of Anderson Hill, Victoria	The most outstanding assemblage of rare and endangered plant species in British Columbia; Coastal Douglas Fir Zone.	23
348. Gun Creek	South Chilcotin Mountains	An altitudinal transect from montane grassland through subalpine dry forest to alpine vegetation in dry variants of the Engelmann Spruce-Subalpine Fir, and the Alpine Tundra Zones.	250
349. Molly Creek	Upper reaches of Molly Creek, 35 km W of Edgewood & 75 km N of Grand Forks	Exeptional stand of old western red cedar; Interior Western Hemlock Zone.	10.5
358. Hesquiat Lake	West Vancouver Island	A population of the rare endemic dwarf trillium (Trillium hibbersonii) in its natural ecosystem.	46
360. Agamemnon Channel	Near Sechelt	Marine ecosystem with outstanding examples of corals and sponges; endangered by sediments from log rafts.	250

ER # and Name	Location	Main Feature(s)	Are (h
363. Tahsish/Kwois	NW Vancouver Island	Small sample of Canada' tallest Sitka spruce in the Coastal Western Hemlock Zone.	140
364. Seal Bay	Near Comox	Example of rapidly disappearing wetland/forest mosaic with Vancouver Island aspen in the Coastal Douglas Fir Zone.	40
369. Mahoney Lake	Near Okanagan Falls	Southern interior saline lake with unique limnological features of international scientific recognition. Ponderosa pine-Bunchgrass Zone.	35
374. White Ridge	Near Gold River	Outstanding coastal karst ecosystem, including rare plants, B.C.'s deepest cave, ice deposits, accumulation of animal bones, etc.	1,575
